

McAfee Online Backup

Powered by Mozy™

Easily and safely protect all of your digital files and memories

Simple. Safe. Unlimited. McAfee® Online Backup, takes the hassle out of manually backing up all of your valuable digital files—from Microsoft Outlook email and contacts to treasured family photos. Once you've installed the software, the backup process is easy because it's fully automated. Your files are then encrypted and stored on a secure remote server online. There's no capacity limitation, so you can back up all of your precious files. Your files are safe and easy to retrieve with just a few mouse clicks.

Key Product Features and Benefits

Auto-backup—Completely automated file backup makes the process simple and seamless

Unlimited capacity—There's no limit to the number of files you can back up

Secure encryption—128-bit SSL encryption is used during the backup process, and 448-bit Blowfish encryption protects your files while they're in storage, giving you peace of mind that your private data is safe from hackers

Online access—Restore your files anywhere using any high-speed Internet-enabled PC

New and changed file detection—McAfee Online Backup finds and saves the smallest changes, giving you a thorough backup

Backup for Outlook files and more—Save all of your files, including email contacts and messages

Time-saving incremental backup—After the initial backup, McAfee Online Backup only backs up files that have been added or changed, saving you time

Open/locked file support—McAfee Online Backup backs up your documents, whether they're open or closed
