McAfee Family Protection

The Easiest, Most Complete Way to Keep Your Children Safe Online

McAfee Family Protection is proven to be easy-to-use and built to empower parents to say "yes" to their children's online interests, knowing they will be safe as they learn and explore. Our advanced filtering technology prevents exposure to objectionable content, such as inappropriate video and explicit music lyrics, yet gives children access to appropriate ones. If you are always on the go, you can be notified instantly by email and/or text[1] if any access to inappropriate sites is attempted. With McAfee Family Protection, you have the peace of mind that your children are safe to learn, explore, and enjoy the Internet.

Easy!—Fast, simple, age-appropriate settings enable parents to provide a safe Internet experience in minutes

Effective!—Powerful online protection prevents children from accidentally viewing inappropriate content

Complete!—Advanced features, including content and social networking controls, adapt and protect children of all ages as their online interests change

The ideal complement to your existing PC security software, McAfee Family Protection works with all major brands.

Protects Your Children From:
Adult Content
Cyber-bullying
Contact with Strangers
Objectionable YouTube Videos
Inappropriate TV Shows
Downloading Explicit Music

Reassures Parents With:
Social Network Monitoring
Instant Message Reporting
Setting Time Limits
Email and Text Alerting
TV Show and Movie Monitoring
Explicit Language Music Monitoring
Activity Reports

Features and Highlights

Online TV Filtering—Manage online TV viewing based on MPAA ratings[2]

Manage iTunes—Block previewing and downloading of explicit rated music and videos on iTunes

Instant Message Reporting—Monitors and records instant message conversations so parents are aware of cyber-bullying and improper dialogue with strangers

Social Network Monitoring—Records when personal information (for example: phone number, address, location) is posted to social networking sites and monitors the use of profanity and sexually explicit terms

Set Time Limits—Manage the amount of time your children spend on the Internet

Block Objectionable Websites—Filter up to 35 categories of inappropriate websites to which children may be accidentally exposed

Review Activity Reports—View and understand your children's online activities to communicate and educate proper online behaviors

YouTube Filtering—Unique technology that prevents exposure to objectionable content yet gives children access to appropriate videos

Instant Text Alerts[1]—Receive email and/or text alerts instantly when intentional or accidental access to blocked websites is attempted

Program Blocking—Blocks access to programs on the computer that may be inappropriate to children, and blocks file sharing programs, such as BearShare, that may include unwanted material in the files

Encrypted Site Blocking—Provides a deeper layer of protection against access to secure websites that may include inappropriate content, which helps prevent children from circumventing the system

30-Day Money-Back Guarantee

If you are not 100% satisfied, you will receive a full refund.

What You Want to Do	How McAfee Makes It Possible
Protect your children from objectionable websites	Blocks up to 35 categories of objectionable websites and filters inappropriate content
Allow your children to view appropriate YouTube videos	By using keyword filtering technology, objectionable videos are blocked
Manage the amount of time your children spend online	Set the day and/or time your child can access the Internet
Let your children use instant messaging (IM)	Monitors and records instant message conversations to inform you about improper dialogue with strangers
Enjoy the benefits of social networking	Records posting of confidential information
Make sure your family's personal information remains safe	Prevents sharing of confidential information and keeps your PC safe from security threats found in peer-to-peer file sharing
Ensure that your children are having a safe experience online	Activity reports provide you a complete view of all Internet and IM activity and can be used as a tool to teach appropriate online behavior
Know immediately if there is a problem so you can talk to your child	Receive email and/or text alerts[1] instantly when inappropriate website access is attempted
Allow access to age-appropriate TV shows	Manage online viewing of TV shows with MPAA ratings[2]
Prevent downloading of music with explicit language	Block previewing and downloading of music with explicit ratings on iTunes

[1] Text alerts are only available for US phone subscribers

[2] Feature available for US programs with FCC and MPAA ratings
