

McAfee®

SiteAdvisor Plus 2009

Unique Protection that Identifies and Shields You from Risky Web Sites

With the daily emergence of new and more sophisticated Internet threats that could disrupt your digital life, you need more than a simple anti-virus program to protect yourself, your computer, your identity and your family. You need McAfee® SiteAdvisor® Plus for comprehensive protection against risky web sites so you can safely surf, shop and bank online.

Simple to Use

McAfee's set-it-and-forget-it security works in the background and lets you focus on the online activities you want to do.

Powerful, Up-to-date Protection

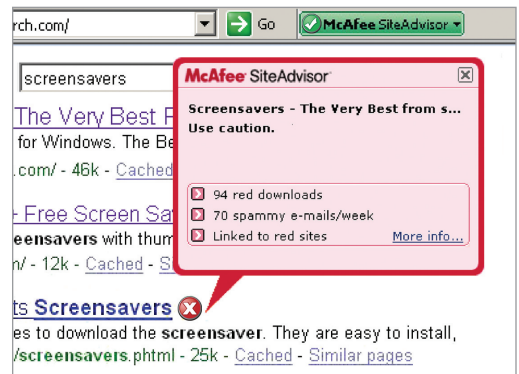

Continuous and automatic updates keep you a step ahead of ever-evolving online threats.

The Trusted Security Provider

McAfee has been the leading computer security company for nearly 20 years and is backed by McAfee Avert® Labs, a world-class security threat research organization.

Safely Search and Transact Online

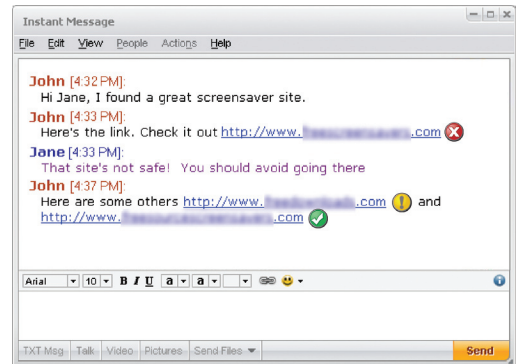

McAfee SiteAdvisor® Plus provides real-time comprehensive protection from web sites that can compromise your identity and your PC. Safety ratings warn you by using simple color codes. Link checking on email and instant messages shield you from risky web sites. McAfee SiteAdvisor Plus also offers a protected mode option for enhanced web security.

When using popular search engines, McAfee SiteAdvisor Plus' safety rating appear next to your search results. To see more information about the web site, roll your mouse over any SiteAdvisor Plus safety rating.

Product Features

- **Web Site Safety Ratings**—Warns you about web sites with red, yellow, and green safety ratings
- **Anti-phishing**—Alerts you to web sites that may try to steal your identity to gain access to your financial information
- **Protected Mode**—Prevents you from going to unsafe sites through your browser, email, or instant message
- **Email and IM Link Checker**—Checks links in both email and instant messages

Stay safe with instant message and email link checking

The McAfee Advantage

McAfee's security products use award-winning technology, are easy to install, and come with unlimited email and chat assistance. With continuous and automatic updates, McAfee helps ensure that you are running the most current security to combat the ever-evolving Internet threats for the duration of your subscription.

Note: An Internet connection is required to install this security software and to receive automatic updates and upgrades to keep your protection current.
