# Getting started with McAfee All Access

Start getting maximum protection and peace of mind for all your digital devices. Just choose your protection, and then download and install your products on the devices you want to protect.

## Choosing your protection from My Account

The My Account page shows your **McAfee All Access** protection products, organized by device type. Click the **+** icon beside each device type to open the drawer and view the products you can download. For example, to see the products available for a Mac, click the **+** icon beside **Macs**.

For every device you need to protect, log in to My Account at http://home.mcafee.com with your McAfee email address and password. Open the drawer for the device, and download and install the products you need. Remember, log in to My Account from a PC to download a PC product, and from a Mac to download a Mac product.

## Downloading and installing your Mac security

McAfee All Access lets you customize your Mac security by offering two types of protection:

- **McAfee Internet Security for Macs** protects your Mac from online threats.
- **McAfee Family Protection for Macs** protects your kids while they're online.

For maximum protection, download and install these products on every Mac in your household.

### Protect your Mac

Protect each Mac in your household by completing these steps:

1. From the Mac you want to protect, log in to My Account at http://home.mcafee.com with your McAfee email address and password.
2. Open the **Macs** drawer by clicking the **+** icon.
3. Download **McAfee Internet Security for Macs**.
4. Follow the on-screen instructions to complete your installation.

## Protect your kids

If you have kids using Macs, keep them protected while they surf online, and get **McAfee Family Protection for Macs**. Complete these steps for each Mac your kids use:

1. From the Mac your kids use, log in to My Account at http://home.mcafee.com with your McAfee email address and password.
2. Open the **Macs** drawer by clicking the **+** icon.
3. Download **McAfee Family Protection for Mac**.
4. Follow the on-screen instructions to complete your installation.
