McAfee®

McAfee Internet Security 2010

Comprehensive, award-wining PC security to freely explore online

With the daily emergence of new and more sophisticated Internet threats that could disrupt your digital life, you need more than a simple anti-virus program to protect yourself, your computer, and your family. You need feature-rich and simple-to-use McAfee® Internet Security 2010 software.

New 2010 Product Features

Active Protection—Our revolutionary Active Protection technology provides the fastest protection against malicious threats to your PC. New and emerging threats are analyzed and blocked in milliseconds, so you don't have to wait for regular updates to arrive

Quickscan—Checks for threats in the areas of your computer that are most often attacked

Faster performance—Now with quicker startup, shutdown, and scan times, it runs silently in the background without slowing down your PC so you can play games, watch videos, and use applications uninterrupted

Enterprise-class anti-spam—Upgraded with powerful industry grade spam protection that helps keep your inbox free from unwanted, fraudulent, offensive, and phishing emails

Power optimization—Extends the battery lifetime of notebook PCs by deferring scheduled scans until the computer is plugged in and can be set up to shut down automatically after running a scan to help save energy

Age-appropriate searching—Automatically sets the proper content filtering levels of popular search engines

Parental controls support for Google Chrome—Lets your children choose Google's latest web browser and still be protected

New Product Highlights

Anti-virus and antispyware—Detects, blocks, and removes viruses, spyware, and adware

Anti-phishing—Alerts you to websites that may try to steal your identity

Identity protection—Helps you to shop, bank, and trade online safely

Two-way firewall protection—Confidently use the Internet 24/7 knowing hackers can't get access to your PCs

Website safety ratings—Warns you with color-coded ratings about unsafe websites

System Requirements

- Microsoft Windows 2000 (32-bit) with Service Pack 4 (SP4) or higher, Microsoft Windows XP (32-bit) with Service Pack 2 (SP2) or higher, Microsoft Windows Vista (32- or 64-bit), Microsoft Windows 7 (32- or 64-bit)
