McAfee® PC Protection Plus

VirusScan® Plus, Backup & Restore

Protect Your PC and Life Memories

With photos, music, videos and valuable documents stored on your PC, it's more important than ever to protect yourself from viruses, spyware and hackers. You also need an easy way to back up and restore your important files.

McAfee PC Protection Plus provides essential protection while surfing the Web and downloading files. It also makes it easier than ever to back up and restore photos, music, videos and other important information.

5-in-1 Protection

McAfee PC Protection Plus is 5-in-1 protection for your PC and important files. Relax knowing that you always have the latest protection updates, software upgrades and enhancements automatically delivered to you.

Stops Viruses. Automatically blocks, cleans and removes viruses so you can surf the Web and download files safely. Cleans files, e-mails, Internet downloads and instant messaging attachments, and also prevents the spread of viruses to co-workers, friends and family.

Blocks Spyware. McAfee also blocks spyware before it can install on your computer, and removes existing spyware. Secure your identity and privacy – while also keeping your PC from getting clogged with unnecessary programs and files.

Stops Hackers. McAfee PC Protection Plus protects and conceals your computer from hackers so you can connect to the Internet safely. The built-in firewall automatically denies Internet access to malicious applications, while allowing trusted programs to connect without unnecessary alerts or false alarms. In addition, you are fully integrated with Hackerwatch.org, an anti-hacking database that provides additional tools and resources on hacker activities.

Improves PC Performance. Cleans clutter off of your computer to keep it healthy and running smoothly.

Backs Up & Restores Files. McAfee's trusted computer protection also offers simple but powerful automated backup with a one-click feature to restore photos, music, videos and other important files. You can save copies of your most valuable files wherever you want, encrypting and compressing them on a CD or DVD, or on a USB, external or network drive.

Simplifies Security With One-Click Interface

The new McAfee® SecurityCenter makes security easy. With one-click, you can view your protection status. You can also check for updates and fix potential security issues.

Simply Designed For You. McAfee SecurityCenter is the most intuitive and easy to use security console.

Safe Searching With McAfee® SiteAdvisor™

In addition to 5-in-1 protection, you get McAfee SiteAdvisor's Web safety ratings, which help you stay safe from adware, spyware, spam and online scams as you search, browse and shop online.

McAfee®

McAfee – Always On, Always Protecting

When you install, you are subscribing to the most up-to-date security software delivered to you by McAfee's patented Security as a Service (SaS™) technology.

Always Upgrading, Always Updating

Daily threat protection and updates are delivered to you 24/7 from McAfee's world-class research center, McAfee® Avert® Labs. Free software upgrades and enhancements are provided as long as your subscription is active.

Convenient, Ongoing Protection

McAfee offers a variety of renewal options to keep your McAfee protection current.
