BlackBerry

With a McAfee® All Access subscription you get an unlimited* number of device licenses, so that you have the freedom to protect all the PCs, Macs, smartphones, and tablets you own. Connect with confidence knowing your personal data is secure on all your devices whenever and however you connect.

All Your Devices. All Your Stuff. All Protected.

McAfee All Access enables you to safely surf, shop, network, and interact online with all the devices you own. Today, most security products only protect a particular type of computer or device, which means you end up spending precious time and money on products that only partially address your needs. With McAfee All Access, you get one, easy-to-use subscription that secures all your sensitive information on all the devices you own.

Keep all your devices safe

- Unlimited* number of device licenses to protect all your PCs, Macs, smartphones, and tablets.
- Simple security management.
- Easily add new devices.

Protect against viruses and online threats

- Stay protected against viruses, malware, and online threats.
- Safely shop, search, and bank online.
- Keep your children safe by blocking questionable content and monitoring their online activities.

Secure your smartphone and tablets

- Locate and lock a lost or stolen smartphone or tablet, and keep your data away from thieves.
- Stay safe on the go with real-time protection against mobile viruses and spam.
- Protect your Android device against risky apps.

Manage passwords

- Automatically enter usernames and passwords for favorite sites.
- Create unique and secure passwords that McAfee remembers for you.
- Sync your passwords across all your devices.

Get free support

- Enjoy free technical support for the life of your subscription.
- Phone or chat with a McAfee expert.
- Easily access support through your McAfee My Account page.

McAfee All Access is a single solution that provides comprehensive protection for your PCs, Macs, smartphones, and tablets. It delivers complete security that allows you to apply the protection you need to all the devices you own and safeguard them wherever you connect.
