

McAfee® All Access

Unlimited* licenses to protect all the devices you own

McAfee All Access, from Intel Security, protects all the devices you own. Guard your PCs, Macs, smartphones, and tablets against viruses and online threats with one subscription.

McAfee All Access also includes a password manager so you can easily manage your online passwords in one place and automatically log into your favorite sites with one click.

Top 3 Benefits of McAfee All Access:

1. Unlimited* number of device licenses to cover all the PCs, Macs, smartphones, and tablets you own
2. Guard against viruses and the latest online threats
3. Safeguard your mobile devices from viruses, data loss, and risky apps

Protect All Your Devices

How many devices do you own? Do you shop, bank, and search on your PCs, Macs, smartphones, and tablets?

McAfee All Access provides comprehensive protection for your digital life by protecting all the devices you own. One subscription of McAfee All Access covers an unlimited* number of device licenses to protect all your PCs, Macs, smartphones, and tablets.

Easily add new devices to your subscription and simply manage them from one place. Whether you are shopping on your computer or banking from your mobile device, have peace of mind knowing all your devices are secure with McAfee All Access.

Guard Against Viruses and Online Threats

Are you concerned about viruses and malware? Do you want to keep your identity safe from hackers and identity thieves?

McAfee All Access blocks viruses, malware, and the latest online threats from infecting your devices.

With real-time anti-malware, a two-way firewall, and a next-generation scanning engine, we help keep your computers running at their top performance and help shield your sensitive information away from identity thieves.

Comprehensive Mobile Security

Have you ever lost your phone and all the data on it? Do you shop, bank, and search on your mobile devices like you do on your computers?

Our award-winning mobile security app protects your Android smartphones and tablets from data loss and theft with track, backup, locate, lock, and wipe features.

You can also safeguard the data on your mobile devices against risky apps and guard against online threats that may be looking to steal your information.

Data Sheet

System Requirements

Internet connection required, high-speed connection recommended
