

## McAfee Family Protection for Mac 2013

Allow your children to discover the Internet safely

McAfee Family Protection for Mac goes beyond Mac OS X parental controls by providing comprehensive filtering on all forms of media.

### Protects Your Children

- Adult content
- Contact with strangers
- Objectionable YouTube videos
- Inappropriate TV shows
- Downloading explicit music

### Reassures Parents

- Social network blocking
- Instant message blocking
- Setting time limits
- Email and text alerting
- TV show and movie monitoring
- Explicit-language music monitoring
- Activity reports

McAfee® Family Protection for Mac software helps parents easily protect their kids from age-inappropriate online content and keeps parents informed with rich, easy-to-read reports of web activity. McAfee Family Protection software is easy to use, effective, and gives you the peace of mind of knowing you are allowing your kids to discover the Internet safely.

**Easy**—Fast, simple, age-appropriate settings enable parents to provide a safe Internet experience in minutes

**Effective**—Powerful online protection prevents children from accidentally viewing inappropriate content

**Complete**—Advanced features, including advanced controls for video and music, adapt and protect children of all ages as their online interests change

**Online TV filtering\***—Manage online TV viewing based on MPAA ratings.

**Manage iTunes**—Block previewing and downloading of explicit-rated music and videos on Apple iTunes.

**Instant Message blocking**—Blocks popular instant messaging programs so that parents can prevent their children from talking with strangers.

**Social network blocking**—Allows parents to block social networks until children are mature enough to use them.

**Set time limits**—Manage the amount of time your children spend on the Internet.

**Block objectionable websites**—Filter up to 35 categories of inappropriate websites to which children may be accidentally exposed.

**Review activity reports**—View and understand your children's online activities to communicate and educate proper online behaviors.

**YouTube filtering**—Unique technology that prevents exposure to objectionable content yet gives children access to appropriate videos.

**Instant text alerts\*\***—Receive email and/or text alerts instantly when intentional or accidental access to blocked websites is attempted.

**Program blocking**—Blocks access to programs on the computer that may be inappropriate to children and blocks file sharing programs, such as BearShare, that may include unwanted material in the files.

**Encrypted site blocking**—Provides a deeper layer of protection against access to secure websites that may include inappropriate content, which helps prevent children from circumventing the system.

- Full-featured parental control software that grows with your children as their interests change.
- Powerful media filtering which covers websites, YouTube videos, online TV, and iTunes downloads.
- Sophisticated activity reports that summarize your children's online activity based on their interests.

### What you want to do

### How McAfee makes this possible

Protect your children from objectionable websites	Blocks up to 35 categories of objectionable websites and filters inappropriate content
Allow your children to view appropriate YouTube videos	On a clip-by-clip basis, block inappropriate YouTube content while allowing access to all other videos
Manage the amount of time your children spend online	Set the day and/or time that your child can access the Internet
Allow your kids to use Google and other search engines	Monitor search terms and force safe-search settings on popular search engines
Block strangers from having access to your child	Software can block Instant Messengers and social networks
Allow access to age-appropriate online TV shows*	Manage online viewing of TV programs by FCC and MPAA ratings
Prevent downloading music with explicit lyrics	Blocks previewing and downloading explicit-rated music on iTunes
Ensure that your children are having a safe experience online	Activity reports give you a snapshot of all web activity, which lets you know if your rules are being followed or if you need to intervene in a troublesome situation
Know immediately if there is a problem so you can talk to your child	Receive email and/or text alerts** instantly when inappropriate website access is attempted

\* TV filtering is limited to shows with US FCC ratings.

\*\* Text alerts are for US subscribers only.
