

# McAfee LiveSafe™

**Ultimate protection for your data and identity on all your devices**

McAfee LiveSafe™ service, from Intel Security, protects your data and identity on your devices. Guard your PCs, Macs, smartphones, and tablets against viruses and online threats with one subscription.

McAfee LiveSafe also includes a password manager and secure cloud storage, so you can easily manage your online passwords and securely store sensitive documents online. You live your digital life. We keep it secure.

## Top 3 Benefits of McAfee LiveSafe:

1. Unlimited\* number of device licenses to cover all the PCs, Macs, smartphones, and tablets you own
2. Guard against viruses and the latest online threats
3. Safeguard your mobile devices from viruses, data loss, and risky apps

### Protect All Your Devices

How many devices do you own? Do you shop, bank, and search on your PCs, Macs, smartphones, and tablets?

McAfee LiveSafe service provides comprehensive protection for your digital life by protecting all the devices you own. One subscription of McAfee LiveSafe covers an unlimited\* number of device licenses so you can protect all your PCs, Macs, smartphones, and tablets.

Easily add new devices to your subscription and simply manage them from one place. Whether you are shopping on your computer or banking from your mobile device, have peace of mind knowing all your devices are secure with McAfee LiveSafe.

### Guard Against Viruses and Online Threats

Are you concerned about viruses and malware? Do you want to keep your identity safe from hackers and identity thieves?

McAfee LiveSafe blocks viruses, malware, and the latest online threats from infecting your devices.

With real-time anti-malware, a two-way firewall, and a next-generation scanning engine, we help keep your computers running at their top performance and help shield your sensitive information away from identity thieves.

### Comprehensive Mobile Security

Have you ever lost your phone and all the data on it? Do you shop, bank, and search on your mobile devices like you do on your computers?

Our award-winning mobile security app protects your Android and iOS smartphones and tablets from data loss and theft with backup, locate, and wipe features.

You can also safeguard the data on your Android mobile devices against risky apps and guard against online threats that may be looking to steal your information.

## Password Manager

Have a hard time remembering your passwords? Do you use the same password for all your online accounts?

Incorporated in your McAfee LiveSafe subscription is McAfee SafeKey, a password manager that remembers and securely stores your online usernames and passwords, so you don't have to.

With your SafeKey account, you can easily and automatically log into your favorite sites. Additionally, McAfee SafeKey can help you create hard to guess passwords for each of your online accounts.

## System Requirements

Internet connection required, high-speed connection recommended

## Supported Operating Systems

- Windows 8.1 (32- and 64-bit)
- Windows 8 (32- and 64-bit)
- Windows 7 (32- and 64-bit)
- Windows Vista SP1 (32- and 64-bit)
- Mac OS X 10.7 and higher
- Google Android smartphones and tablets 2.3 or higher
- iOS 5 or higher

## Secure Cloud Storage

Do you store sensitive documents in the cloud? Can you easily access personal documents on the go?

With McAfee Personal Locker, which is included in your McAfee LiveSafe subscription, you can securely store your most sensitive documents in the cloud. Your Personal Locker uses your voice and your face to control access to your private files.

Stores copies of personal documents like your passport or ID and easily access them on the go, with McAfee Personal Locker.
