# McAfee Total Protection 2010

Ultimate. Most effective protection against virus, online and network threats.

With thousands of new viruses created every day, relying on traditional security updates isn't enough anymore. McAfee® Total Protection instantly detects and blocks viruses, including stopping web threats before they are downloaded to your PC. Reengineered for the fastest PC performance ever, the software's innovative design simplifies your security experience while offering ultimate protection.

## 2010 Features and Highlights

#1 in threat detection of viruses, spyware and other malware*

*Source: *AV-Comparatives*, Feb. 2009. McAfee detection rates are a result of the innovative detection capabilities of Active Protection. www.av-comparatives.org

### Award-winning Anti-Virus, firewall, spyware and online protection

Exclusive *Active Protection* technology—Unlike the competition, new and emerging threats are analyzed and blocked in milliseconds, so you don't have to wait for regular updates to arrive. The result: virtually no gap in your protection.

**Anti-Virus/Anti-Spyware**—Detects, blocks, and removes viruses, spyware, adware, even rootkits—insidious programs designed to tamper with your PC.

**Two-Way Firewall**—Blocks outsiders from hacking into your PC.

### Easier to use

McAfee Total Protection 2010 is all about ease of use. The completely redesigned Home Screen gives you all the information you need at a glance.

Home Screen with an easy-to-understand security bar and status area.

**(New) Home Screen**—Completely redesigned to streamline your security experience. Easily check the status of your protection, monitor how many threats have been blocked, and manage your security—all from the Home Screen.

**(New) Idle Timer & Scheduler**—Reserve security scans and updates for when you are not using your PC, for less disruptions.

**(Improved) Parental Controls**—Improved filtering controls allow you to effectively manage your children's online usage.

**(New) Home Network Defense**—Easily identify and lock out intruders so your home-networked PCs stay protected.

**My Home Network**—Manage security settings within your home network. My Home Network verifies that McAfee has been properly installed on all your PCs.

**(Improved) Alert System**—Reconfigured to give you the most crucial product alerts. Alerts are less intrusive and easier to understand.

**(Improved) Help Center**—Smarter and more intuitive—get accurate answers specifically related to the tasks you're trying to accomplish with contextual Help.

## System Requirements

- Windows XP (32-bit) with Service Pack 2 (SP2) or higher
- Windows Vista (32- or 64-bit) and Windows Vista Service Pack 1 (SP1) or higher

## Faster than ever
This year McAfee AntiVirus Plus has been completely reengineered so it's faster than ever.

| | |
|---|---|
| 2009 | |
| 2010 | **73% Faster** |

Application start-up time
McAfee 2009 vs. McAfee 2010

**(Improved) Update Time**—Thanks to numerous performance enhancements, the update time for McAfee Total Protection 2010 has been greatly improved.
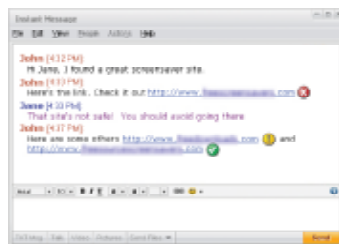

**(Improved) Scan Time**—Rely on real-time scanning to automatically protect you against threats to your PC. Full system scan speed is faster so you won't be slowed down.

**(Improved) Memory Utilization**—Reduced memory footprint means less impact on your day-to-day PC activity.

**(Improved) Installation**—Smaller download size enables you to get up and running in a snap.

## Better protection against dangerous websites
**(Improved) SiteAdvisor Plus** —Helps you know whether a website is safe before you click and checks links within email and instant messages to stop malware threats. Now instantly blocks your PC when exposed to potential threats.

Stay safe with instant message and email link checking.

## Anti-spam and email protection
**(Improved) Spam Blocking**—Advanced spam identification capabilities prevent it from clogging your inbox.

## Better PC health
**QuickClean**—Safely removes junk files that slow down your PC.

**Shredder**—Digitally destroys no-longer-needed sensitive files to prevent anyone from accessing them.

**Disk Defragmenter**—Get quick access to consolidate fragmented files and folders.

## File protection and backup
**(New) Online Backup**—Take the hassle out of manually backing up your most valuable digital files. Once installed, the backup process is fully automated. Your files are encrypted and stored on a secure remote online server. Comes with 2GB of online storage.

**Bonus Download! Anti-Theft File Protection ($29.99 value)**—Password-protects and encrypts your personal documents, financial records and other important files on your PC against thieves and hackers.

## The McAfee advantage
McAfee is the world's largest dedicated security company.

30-day free phone support and unlimited email and chat assistance.

Continuous and automatic updates for the life of your subscription.
