Works with **Windows Vista™**

McAfee® Total Protection
with SiteAdvisor™ Plus

Proactive Online and PC Security for Your Family & Home Network

With the daily emergence of new and more sophisticated Internet threats and cyber criminals, you need more than a simple anti-virus program to avoid the online attacks that target you, your computer, your identity and that could disrupt your life immeasurably.

McAfee Total Protection provides comprehensive, proactive 12-in-1 security that guards what you value; and, McAfee SiteAdvisor Plus actively shields your PC from interaction with dangerous websites. Continuously and automatically updating, McAfee's security service helps prevent online hacker attacks with the latest protection. Also, it features a back-up and restore capability.

12-in-1 Prevention and Protection

Safe Search, Safe Surf. McAfee SiteAdvisor adds ratings to websites to help you avoid online dangers.

Home License Subscription Service. Automatically delivers the latest software features and threat updates and lets you easily manage security subscriptions for all your PCs.*

Stops Viruses. Blocks and removes viruses and even stops them before they get to your PC.

Stops Hackers. Protects and conceals your computer from hackers.

Blocks Spyware. Blocks spyware before it installs on your computer and removes existing spyware.

Improves PC Health. Cleans clutter off your computer so it stays healthy and secure.

Secures Your Identity. Guards your identity from online fraud scams and identity thieves.

Prevents Spam & Email Scams. Shields you from junk email.

Protects Children Online. Filters offensive content, pictures, and websites.

Backs Up & Restores Files. Automated back-up and one-click restore to protect your photos, music and important files.

Home Network Protection. Monitors your entire network for security weaknesses, and lets you easily share files and printers.

SiteAdvisor Plus. Extends safety ratings to links in emails and instant messages, and actively shields your PC from dangerous websites.

*An Internet connection is required to receive the latest version of the software and all updates and upgrades.

Simplifies Security With One-Click Interface

McAfee® SecurityCenter™ makes security simple. With a click, you can view your protection status. You can also check for updates and easily fix potential security issues.

McAfee SecurityCenter is an intuitive and easy-to-use security console.

McAfee – Security Service

McAfee's security subscription service continuously delivers the latest software so your protection is never out-of-date. You can now easily add and manage security for multiple PCs in your home. Moreover, improved performance allows it to protect, without disturbing you.
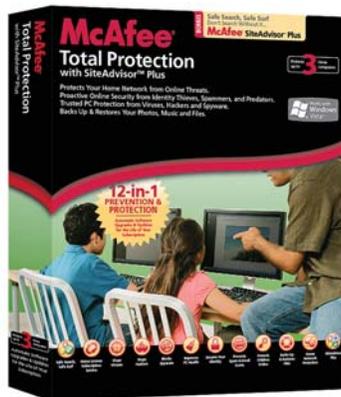

Additional Benefits

Redesigned for You. Scan your computer, check for updates and configure your security settings using the McAfee SecurityCenter. This essential, easy-to-use program gives you one-click access to your computer's security information.

Always On, Always Protecting. 24/7 virus and threat protection from McAfee® Avert® Labs continuously monitors worldwide virus activities and provides immediate anti-virus protection and removal solutions.

Always Upgrading, Always Updating. Daily updates are installed automatically. When new versions are available, you get them automatically at no charge during your subscription, ensuring that you always have up-to-date protection.

Convenient, Ongoing Protection. McAfee offers a variety of renewal options to keep your McAfee protection current.

Real People, Real Help for Free. Our team of experts are available 24/7 via Internet chat at: www.mcafeehelp.com

Features

→ **Integrated anti-virus, anti-spyware, firewall, anti-spam, anti-phishing, and backup technologies.**

→ **Spyware protection** detects, blocks, and removes spyware and adware.

→ **New! Do Not Disturb Mode** watch movies, slide shows, play games, uninterrupted as McAfee security service intelligently defers tasks, updates, alerts when you're in full screen mode.

→ **Backup & Restore** saves copies of your most valuable files wherever you want, encrypting and compressing your files on a CD/DVD, or USB, external, or network drive.

→ **McAfee® Image Analysis** enhances content protection by protecting your family from potentially offensive content and pictures.

→ **McAfee® SystemGuards** watches your computer for specific behaviors that may signal virus, spyware, or hacker activity.

→ **McAfee® X-Ray for Windows** detects and kills rootkits and other malicious applications that hide from Windows and other anti-virus programs.

→ **McAfee® Network Manager** monitors PCs across your network for security weaknesses so you can easily fix security issues from one centralized network map.

→ **McAfee® EasyNetwork** provides automatic printer sharing and drag-and-drop file sharing across trusted computers on your home network.

→ **McAfee® Shredder** allows you to digitally "shred" confidential files, effectively removing any and all traces of them from your computer.
